# Azkar widgets: every design

Rendered by the app's own widget renderers (NewWidgetRenderer, WidgetRenderer) at their design sizes. Each widget appears with an English UI (EN) and an Arabic UI (AR). Sample data: the morning folder part-way through; tracking widgets use a sample 12-day streak with the morning session running at 08:40.

## Contents

Page 2 · Tap disc: B_SMALL, B_MEDIUM
Page 3 · Morning & evening: D_SMALL, D_MEDIUM, D_LARGE
Page 4 · Bead string: H_SMALL, H_MEDIUM, H_LARGE
